

NORSEMAN RIG ENCLOSURES. GUARD YOUR RIG AND CREW AGAINST THE ELEMENTS.

Your crews work hard to keep projects on time and on budget, even on drilling sites where the weather is working against them. By protecting your crew and equipment from the elements, Norseman's industry-leading Rig Enclosures help you improve safety, reduce downtime and maximize productivity.

Type of Equipment Enclosures

- Rig shelters, including mud tanks and travel tarps.
- Portable and stationary aggregate, asphalt and cement batch plants consisting of jaw crushers, screens and cone trailers.
- Portable and stationary waste recycling plants.
- Mining and agricultural material conveyors and product separator plants.

Specifications

- Norseman's design versatility and manufacturing capabilities allow for custom fabrication to specific requirements.
- Fabrics are selected to perform in whatever weather challenge you face. Norseman's proprietary Arctic Hyprene™ fabric is designed to last for years under the most demanding rig conditions.
- A framework is manufactured from HSS and other steel members that conform to CSA-G420.21 Grade 50W.
- Innovative hardware design for quick, easy set-up and take-down
- All fabric components are labeled for easy identification and installation.

Norseman Rig Enclosures are **GEAR2PERFORM**.

PROTECT

Shield your team, and equipment from rain, wind, dust and extreme temperatures.

WITHSTAND
