

POLY CONSTRUCTION TARPS

**YOU CAN'T
AFFORD DOWN
TIME DUE TO
FREEZING COLD,
SCORCHING HEAT
OR EXCESSIVE WINDS.**

You need to protect your crews from the elements while ensuring they can continue their vital work. You need hoarding materials that are built to withstand rigorous use and extreme construction site conditions. You need to maximize productivity while minimizing costs and risks.

Norseman's Poly Construction Tarps are manufactured with woven coated polyethylene fabric, making them highly durable:

- Designed for visibility and allows sunlight transfer so your team can safely continue working.
- Maintains a consistent temperature, safeguarding your crews from excessive heat and bitter cold.
- Transfers lights and resist the elements, providing a secure work environment for crews.
- Offers crucial protection, ensuring that your workers excel and your project remains on schedule.

Your team and your equipment are protected from the elements and have access to a comfortable worksite, allowing them to outwork and overachieve. **Norseman's Poly Construction Tarps are GEAR2PERFORM.**

GEAR POINTS:

Features specifically designed to ensure Norseman Gear outperforms on your next jobsite.

PROTECT

Shield workers from the elements and from environmental contaminants.

WITHSTAND

Manufactured with woven coated polyethylene fabric for extreme durability.

RESIST

Resist water, mildew and UV rays.

FIT

Available in sheets or rolls of various sizes, some with welded, rope-hemmed edges, installed ties, and grommets every 3 feet. Easy to install, minimizing downtime.

DELIVER

Provides a cost-effective option to address hoarding challenges.
