

ROLL STOCK

SOMETIMES YOU NEED JOBSITE PROTECTIVE GEAR THAT CAN DO IT ALL WITHOUT COSTING YOU A FORTUNE.

Containment. Protection. Security.

Norseman's Roll Stock made with reinforced polyethylene is a workhorse that covers many vital applications.

- Ideally suited for hoarding and scaffolding, general weather protection, and used for construction enclosures or industrial sheeting.
- Combines extreme strength and flexibility to provide a lightweight, budget-friendly solution to your needs.
- Developed to work as hard as your crews do, while ensuring your jobsite is protected from the elements.
- Woven polyethylene offers exceptional durability, no matter what applications you use the Roll Stock for.

Your team and your equipment are protected from the elements and have access to a comfortable worksite, allowing them to outwork and overachieve. **Norseman's Roll Stock is GEAR2PERFORM.**

GEAR POINTS:

Features specifically designed to ensure Norseman Gear outperforms on your next jobsite.

PROTECT

Made with woven polyethylene to protect your jobsite and contain debris.

WITHSTAND

Made with woven polyethylene to protect your jobsite and contain debris.

RESIST

Resists water and mildew and is coated on both sides with white flame-resistant material that passes FR testing.

FIT

Kept on a bulk dispenser roll so it can be cut to the length required for your project.

DELIVER

Whatever your jobsite protection needs for your construction project, Norseman's Roll Stock has you covered. It provides outstanding general weather protection and debris containment and is ideal for scaffolding and hoarding.
