

SCAFFOLD SHEETING

YOU NEED GEAR THAT CAN TACKLE AS MANY DIVERSE PROJECTS AS YOUR CREW CAN.

No matter what season you're working in or what your construction project entails, it's vital that you have Scaffold Sheeting that is lightweight, flexible and easy to handle.

Norseman's Scaffold Sheeting is manufactured with scrim-reinforced polyethylene material for outstanding jobsite protection you need for every season.

- Cost-effective enclosure solution that contains debris while protecting your people and your equipment from weather conditions.
- Highly durable and effective in all temperatures and weather conditions including heavy winds, torrential rains, or summer heat.
- Provides unmatched weather protection and debris containment, while offering improved jobsite visibility.
- Keeps crews safe and comfortable, allowing them to excel at their tasks.
- Securely holds to your scaffold structure, even in extreme winds.

Your team and your equipment are protected from the elements and have access to a comfortable worksite, allowing them to outwork and overachieve. **Norseman's Scaffold Sheeting is GEAR2PERFORM.**

NORSEMAN

WeatherShield

Fire Retardant

CAN/ULC-S109

Manufactured with scrim-reinforced polyethylene material.

GEAR POINTS:

Features specifically designed to ensure Norseman Gear outperforms on your next jobsite.

PROTECT

Protects your crew, your equipment and your jobsite from debris and weather conditions.

WITHSTAND

Manufactured with scrim-reinforced polyethylene for enhanced durability and built with a reinforced yellow safety strip for added strength.

RESIST

Resists water and mildew and passes flame resistant (FR) testing to CAN/ULC-S109.

DELIVER

Designed to be lightweight and flexible, Norseman's Scaffold Sheeting has fastening indicator holes, making them easy to secure to scaffolding. The reinforced yellow safety strips allow for enhanced visibility.
