

NORSEMAN AERO AIRSTREAM

AERO AIRSTREAM . BRIGHTER. COOLER. STRONGER.

Norseman's Aero Airstream™ is our signature air conditioning duct, engineered with superior fabrics and unique features for durability and maximum efficiency. Made with a wire helix core with a durable wear strip and advanced Woven Coated Polyethylene (PE) fabric, this duct has superior tear resistance and stands up to wind, water, mold, mildew and fire. PE fabric resists harsh UV rays, and the waxy chrome finish helps repel dirt and improves airflow, giving you a whiter, brighter duct that lasts. Aero Airstream™ is easy to use: its built-in suspension tabs allow you to fasten the ducting from above, and attached compression straps make it easy to pack and store.

Aero Airstream is GEAR2PERFORM.
